

GEOMAT

Hydraulic & Metal Works

Engineering Excellence for Drilling,
Hydraulic & Industrial Solutions

ABOUT GEOMAT

GEOMAT Hydraulics & Metal Works is a premier engineering company specialising in drilling equipment, hydraulic systems, and industrial fabrication. With decades of combined expertise, we deliver precision-engineered solutions to clients across the globe.

OUR VISION

To be the global benchmark in drilling technology and hydraulic engineering, setting new standards for precision, reliability, and innovation.

OUR MISSION

To engineer and deliver world-class drilling equipment and hydraulic solutions that empower industries to operate safely, efficiently, and sustainably across the most demanding environments.

CORE VALUES

Engineering Excellence • Uncompromising Quality • Client Partnership • Innovation & Precision • Global Reliability

OUR PRODUCTS

Precision-engineered equipment for the world's most demanding drilling and industrial applications.

Drill Rigs

Wireline Core Drilling Systems

Diamond Core Drilling Tools

DTH Drilling Tools

RC Drilling Tools

Rotary Drilling Tools

Hydraulic Systems

Industrial Fabrication

ENGINEERING SOLUTIONS

Comprehensive engineering capabilities tailored to meet the most complex industrial challenges.

- **Custom Engineering**
Bespoke design and manufacturing of drilling components, hydraulic assemblies, and industrial equipment to exact specifications.
- **Hydraulic Systems**
Complete hydraulic power unit design, cylinder manufacturing, valve assembly, and system integration for heavy-duty applications.
- **Industrial Fabrication**
Precision metal fabrication including CNC machining, welding, surface treatment, and quality-assured assembly.
- **Environmental Engineering**
Sustainable solutions for water well drilling, geothermal systems, and environmental remediation projects.
- **Technical Consultation**
Expert advisory services covering equipment selection, system optimisation, and operational efficiency improvements.

INDUSTRIES WE SERVE

Delivering precision-engineered solutions across diverse industrial sectors worldwide.

Mining

Surface & underground mining equipment and drilling systems.

Mineral Exploration

Core drilling and sampling tools for geological surveys.

Water Well

Borehole drilling rigs and pumping systems.

Geotechnical

Site investigation and foundation drilling solutions.

Construction

Heavy-duty equipment for civil engineering projects.

Infrastructure

Piling rigs and ground improvement systems.

Oil & Gas

Exploration and production drilling technologies.

Industrial Manufacturing

CNC machining, fabrication, and assembly services.

WHY CHOOSE GEOMAT

A decade of engineering excellence, delivering precision solutions to industries worldwide.

01

Engineering Expertise

Over a decade of specialized knowledge in drilling, hydraulic, and industrial systems.

02

Premium Quality

ISO-certified manufacturing with rigorous quality control at every stage.

03

Custom Solutions

Bespoke engineering tailored to your project's unique requirements.

04

Reliable Delivery

On-time project completion with efficient supply chain management.

05

Technical Support

Dedicated engineering team providing 24/7 after-sales assistance.

06

Customer Commitment

Long-term partnerships built on trust, transparency, and results.

CONTACT & GLOBAL PRESENCE

Partner with us from anywhere in the world. Our team is ready to support your next project.

10+

Years Experience

500+

Projects Delivered

40+

Employees

98%

Client Satisfaction
